

## Why get a metal cupola?

### 1. Low Maintenance

Metal cupolas do not have to be repainted or maintained like there wooden counterparts

### 2. Reliability

Metal cupolas are made with the same 40 year warrantied metal that we use for our metal roofing.

### 3. Customization

Metal cupolas can be completely customized down to the smallest details.

### 4. No Residue

Cheaper wood cupolas can create residue from wood, stain or paint that can stain your roof.

### 5. Water and Weather Proof

Wood cupolas are vulnerable to water damage over time. Metal cupolas will not splinter or rot.

### 6. Bug proof

Wood cupolas are also vulnerable to a number of pests such as Carpenter Bees.
